

altona Diagnostics is a medical diagnostic company that develops, manufactures, and sells *in vitro* diagnostic tests for the PCR based detection of pathogens such as viruses, bacteria, or parasites. Headquartered in Hamburg-Altona, Germany, altona Diagnostics is privately owned and employs over 350 people worldwide. The company has been active in the field of molecular diagnostics for more than 20 years and is ISO 13485 certified. Our business model is simple and straightforward: good people making good products and offering good service. Come join us if you share the same philosophy!

To strengthen our Research & Development department in Hamburg, we are looking for a highly motivated and dedicated

Biological/chemical technical assistant / chemical laboratory assistant (m/f/d)

Your responsibilities

- Planning and implementation of experiments within the framework of the development, verification, and validation of *in vitro* diagnostics in the field of infectiology
- Focus: Development and testing of chemical buffer solutions for nucleic acid extraction, partly in connection with laboratory automation
- Laboratory work with (human) biological sample materials
- Documentation according to quality assurance guidelines
- Organization and execution of general laboratory activities

Your expertise

- Completed training as a biological or chemical-technical assistant or chemical laboratory technician (m/f/d)
- Experience in the production of chemical solutions
- Affinity for technical equipment and laboratory instruments
- Experience in nucleic acid extraction and PCR analysis
- Independent, reliable, and careful way of working; ability to work in a team and open-mindedness; creative ideas
- Sound handling of the usual MS Office applications

Our offer

Benefit from a wide range of opportunities available within an expanding international company. You will work both independently and as part of a team in a highly motivated, open, and friendly environment. Family-friendly working hours along with a pleasant and familial working atmosphere await you.

Are you interested?

Then we are looking forward to receiving your detailed application including your availability and salary expectations. Please send us your complete application documents (ideally in PDF format) using the "Apply here" button. Your contact person is Mr. Kai Herzog.
