

altona Diagnostics is a medical diagnostic company that develops, manufactures, and sells *in vitro* diagnostic tests for the PCR based detection of pathogens such as viruses, bacteria, or parasites. Headquartered in Hamburg-Altona, Germany, altona Diagnostics is privately owned and employs over 350 people worldwide. The company has been active in the field of molecular diagnostics for more than 20 years and is ISO 13485 certified. Our business model is simple and straightforward: good people making good products and offering good service. Come join us if you share the same philosophy!

To strengthen our Quality Management team in Hamburg, we are looking for a highly motivated and dedicated

Validation Management Professional (m/f/d)

Your responsibilities

- Participate in equipment qualification and validation projects particularly in:
 - Validation, calibration and maintenance of temperature monitoring systems
 - Creation, maintenance and filing of related documentation
 - Maintenance of the device database
- Supporting the QM team with day-to-day business tasks
- Supporting the departments in the creation of processes
- Participation in the preparation of and participation in internal and external audits
- Processing of complaints, deviations, corrective and preventive actions

Your expertise

- Successfully completed studies / education or comparable qualification
- Ideally experience in a laboratory or in quality management
- Very good knowledge of MS Office
- Very good knowledge of German and English, both written and spoken
- Precise and structured way of working paired with a distinctive diligence in documentation
- Strong communication and teamwork skills

Our offer

Benefit from a wide range of opportunities available within an expanding international company. You will work both independently and as part of a team in a highly motivated, open, and friendly environment. Family-friendly working hours along with a pleasant and familial working atmosphere await you.

Are you interested?

Then we are looking forward to receiving your detailed application including your availability and salary expectations. Please send us your complete application documents (ideally in PDF format) using the "Apply here" button. Your contact person is Ms. Dina Jensen.
